

Remote Road Safety Program

Program Description and Learning Outcomes:

ADI's Remote Road Safety Program is designed to develop preventative remote driving skills and road safety awareness by aligning techniques to Worlds Best Practice. Our Instructors train and then seamlessly assess each participant to a required standard of compliance with a client's company remote driving and motor vehicle policies to identify competency and capability. This program is most suitable for corporate and professional drivers who are required to travel throughout remote and regional Australia for work purposes.

Learning outcomes:

- Understand the importance of driving a vehicle safely in remote locations for work.
- Know the hazards and risks associated with remote driving at work
- The ability to apply safe driving methods in accordance with Worlds Best Practice and Australian Road Law

Duration: One full day (8.00am – 4.00pm)

Instructor: Driver Ratio 1:Up to 3 Participants

Vehicle Requirements: One registered and road worthy vehicle is required for the day
