

# RIIVEH305F Operate and Maintain a 4WD Vehicle

## Program Description and Learning Outcome :

This program is designed to develop preventative 4WD skills of drivers required to operate and maintain a four-wheel drive vehicle in the Resources and Infrastructure Industries by aligning techniques to Worlds Best Practice. Our Instructors train and then assess each participant to a required standard of compliance with a client's company driving and motor vehicle policies to identify competency and capability. This unit is appropriate for those working in supervisory and technical specialist roles. Licensing, legislative, regulatory and certification requirements that apply to this unit can vary between states, territories, and Industry sectors. Relevant information must be sourced prior to application of the unit.

### Learning Outcomes:

- Understand the importance of driving a 4WD vehicle safely at work.
- Know the hazards and risks associated with driving a vehicle.
- The ability to apply safe driving methods in accordance with Worlds Best Practice and Australian Road Law.

## Duration:

Two days of training

Day 1 - Online self paced training (Must be completed prior to practical session)

Day 2 - Instructor led practical training (8.00am – 4.30pm)
