

VEHICLE CLEANING CHECKLIST

Vehicle Cleaning Kit and Preparation checklist

- Hand wash - Before and after any meal breaks you and the client(s) are required to wash hands with "soap on tap" with running water or alcohol wipes

- Hand gel: Used when soap and water are not available

- A spray bottle with methylated spirits and a cloth: The steering wheel, door handles, hand brake, gear stick and key of start button must be wiped prior to a new driver taking control of the vehicle

- Tissues and disposal bag. Any tissues used must be disposed of immediately

- Windows are required to be down to allow airflow

Vehicle Cleaning Checklist

Use this template to ensure you're effectively cleaning your vehicle to minimise the spread of germs and bacteria. You can print off copies to keep in the vehicle.
